ÁNGEL MUÑOZ CORTÉS

Frontend Developer | Angular · TypeScript · Microfrontends

Granada, Spain | +34 617 65 96 90 | angelmunozcortes2003@gmail.com | **LinkedIn** | **GitHub**

PROFESSIONAL PROFILE

Frontend Developer and Computer Engineer specialized in Software Engineering, with 2+ years of hands-on Angular experience across professional environments and real-world projects. Experienced in legacy modernization, microfrontends, REST integration and Scrum. Frontend-focused profile with Full-Stack foundations and a strong emphasis on code quality, maintainability and accessibility.

PROFESSIONAL EXPERIENCE

Frontend Developer - MetaEnlace Sistemas de Información | Jul 2025 - Present · Granada / Remote

Angular 16-21 · TypeScript · SCSS · Signals · Module Federation · REST · GitLab · Jira · Jenkins

- Develop and modernize an enterprise platform for a private banking and asset-management client, progressively migrating legacy JSP functionality to Angular.
- Build new screens and features, reactive forms, ACL-based permissions and roles, integrate endpoints, and resolve production bugs and hotfixes.
- Work in a microfrontend architecture using Module Federation, integrated with a Java microservices backend through REST APIs; unit testing experience including Jasmine.
- Professional delivery workflow with GitLab (branching and merge requests), Jira, Jenkins and Scrum; contributing to AI-assisted development initiatives using agents, skills and MCP.

Software Engineering Intern - Everyware Technologies | Jun 2024 - Oct 2024 · Granada

Angular · Ionic · TypeScript · Python · WordPress · Git · Scrum

- Developed mobile solutions with Ionic + Angular for healthcare-sector clients in Scrum teams with fortnightly deliveries, code review and controlled deployments.
- Built supporting automation tasks with Python (web scraping), WordPress and Git.

SELECTED PROJECTS

Final Degree Project - Atarfil production system - University of Granada | Oct 2024 - Jun 2025

Angular · Ionic · TypeScript · Node.js · Express · PostgreSQL · Capacitor

- Independently developed an end-to-end Full-Stack application for industrial plant operators: access/roles, checklists, recurring tasks, incidents, role-based dashboards and PDF reporting.
- Real-world project delivered in collaboration with an industrial company in Atarfe and the University of Granada, covering frontend, backend, database and REST integration.

Accessible application - APS-PAIL Project - Colegio San Rafael / UGR | Sep 2024 - Feb 2025

Angular · Ionic · TypeScript · Firebase · Capacitor · Accessibility

- Worked Full-Stack in a team of six on an application with games and activities for special-education students, with a strong focus on accessibility and usability.
- Coordinated with teachers and speech-therapy specialists to adapt the user experience to real needs at the school.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript, HTML5, SCSS, Angular Material, Signals, Reactive Forms
Architecture & APIs: Microfrontends, Module Federation, REST APIs, microservices, ACL
Backend / Data: Node.js, Express, PostgreSQL, Firebase, Python; web scraping and WordPress experience
Tools & quality: Git, GitLab, GitHub, Jira, Jenkins, Postman, Figma, unit testing (Jasmine), Scrum, agents/skills/MCP

EDUCATION & LANGUAGES

BSc in Computer Engineering - Software Engineering specialization | University of Granada · 2021-2025 · GPA: 7.8/10
Academic distinction: Honours in Project Management.
Languages: Spanish - Native · English - B2, Cambridge B2 First Certificate (2026)
